# TESTIMONIALS

## HIGHLIGHTS

- Credentials
- Quality
- Professional
- Exceptional Value
- Competence

## WHAT CLIENTS SAY

### **Simon (Australia)**

We've known Auscomp since '94 when they first did work for us. We were so impressed that we commissioned them for another two major projects - both of which were again delivered on time & within budget. A post commission analysis showed that the project costs were less than 1/2 the price of what we would have paid elsewhere.

### **Mark (Australia)**

St Virgil's College is delighted to have partnered with Auscomp to re-develop the College's website. The College's Director of Development Mark Waddington noted;

"Auscomp understand the key issues facing a dynamic Catholic primary and secondary school for boys and have incorporated features that enable the College to develop a strong home-school partnership to maximise learning outcomes for students. Working with highly skilled designers who are 100% committed to meeting the needs of our organisation has been a pleasure and we look forward to a long term association with Auscomp"

### **Glen (Australia)**

In Auscomp Fort Knox I finally found the Holy Grail for my profession.

### **Phil (Australia)**

I have worked with Auscomp on a few projects including recently having them redevelop our website. The great balance you find with Auscomp is the ability to not only provide great technical leadership and implementation but to also provide excellent look and feel results. Auscomp provides excellent project management and regular feedback.

# AirParents.com
